REFERENCE: Dean Kraft and the Quinlan Case

Dear Mr. Coburn:

This letter is to affirm that I have investigated the abilities of Dean Kraft in August of this year. It was only a brief examination, however, it was most impressive. From the examination it is my opinion that Dean Kraft could be of some potential benefit in the Quinlan case. It is certainly difficult to imagine that he could be in any way harmful.

If you need further details as to why I hold these opinions, I should be most happy to supply them to any degree which you deem necessary.

Sincerely yours,

Murray R. Susser, M.D.
