Dear Dean,

This is just a little note to tell you once again how thankful & grateful I am to you.

I know you must hear this all the time now, from so many people, but you see, I am only me.

Only 2 1/2 short years ago remember, I was confined either to my bed or to my wheelchair, which was bad enough. But also with those Horrible Constant headaches.

I remember so clearly that first day I met you. My son Marvin had told me about you and I placated him by seeing you, because not in my wildest dreams had I thought you or anybody else for that matter could help me. But after only 10 minutes of your first treatment my headache was gone. For the first time in many, many weeks I had no pain from my head.

The rest of course is all history now. My headaches, my backaches and so forth. And of course the most Miraculous of all, I am Walking. Even after all the doctors said "forget it", that after all my strokes and six operations I would need a Miracle to Walk again. Well I found my Miracle in you - you are My Miracle.

People ask me: You mean you no longer get headaches, and backaches and so on and so forth? Of course

I still get these things occasionally, after all  
I am not a young girl anymore. So of course  
I still have many problems.

But to me, for all you have for me and  
so many like me, I thank God for sending  
you to us.

Dean, I said just a little note, so I don't  
want to go on and on.

Thank You & God Bless You.
